Description

PART # ARO11203

A carburetted fuel pump that allows you to step up your performance by maintaining optimal line pressure and delivering high volume. The Street/Strip Pump was engineered for 200-750 HP carburetted engines making this a perfect choice for a daily driver, street rod or demanding ET-bracket race car.

- Features 3/8" NPT inlet and outlet ports
- Perfect for use with either a Bypass Regulator (P/N 13301) or a Carburetted Adjustable Regulator (P/N 13201 or 13205)
- Fuel flow exceeds 140 GPH at 13.5 volts
- Pump provides 14 PSI fuel pressure - perfect for cars that leave hard
- Pumping mechanism features proprietary composite rotor, stainless steel vanes and precision ground, heat treated steel plates
- Ideal for dedicated nitrous delivery
- Alcohol compatible
- Low current draw (under 5 amps)
