Description

AF64-2025 - BILLET SHORT SHIFTER FG FORD 6 SPEED

The Aeroflow Billet aluminium short shifter reduces the shift throw by 40% resulting in quicker, more positive gear selection. The original shift height and position is retained, with each shift body precision CNC machined from billet aluminium and utilises high-grade steel shafts for a perfect combination of strength and performance. To improve shift speed and precision of 2nd-3rd gear shift, self-centering spring pack systems have been incorporated into each design to ensure a perfect gear selection. Fully adjustable positive stops help against over-shifting and damaging synchros.
